

Stamp Albums in the Printed Book Collections of the British Library

By David R Beech, FRPSL
Head of the Philatelic Collections, the British Library

The British Library, through the former Department of Printed Books of the British Museum (one of its component parts), has acquired seventy-three printed stamp albums. These were received from publishers mainly by legal deposit from the United Kingdom and Colonial territories, with a few being purchased from foreign countries. They were acquired between 1863 to 1972 and published between 1863 and 1971. All of the albums are unused.

The numbered entry listing below is arranged alphabetically by publisher with second and subsequent entries for a publisher arranged in order of date of publication. Printed books, or in this case albums, received at the Library have a dated ownership stamp placed in them. This is the date of receipt at the Library and gives a good indication of the publication date where an album was published undated. The Shelfmark is the unique reference number used to identify the album at the British Library and is the equivalent of a call number used in some other Libraries. Almost all of the listing relates to albums for postage stamps. Non postage stamp albums are identified in the index mentioned below.

An index to compilers, authors and editors, with some cross references, key words to titles and to non-postage stamp albums is given at the end, as is a list in date order of BL stamping; date of publication can be checked from the entry.

The Information, where apparent, is set out thus:

PUBLISHER

Compiler, *Title*, Edition, Date of Publication, Place of Publication, BL stamped.
